

Junior Robostars Application Task

Purpose: Water is all around us! Our theme this year will be an AQUA ADVENTURESM. This year we will learn about this important natural resource. Think about everything you know about water. What have you noticed? What can we learn from this natural resource?

***This task is a required piece of your application. If you have any questions, please find Mrs. Glover or Ms. Donovan! ***

Task: This year's theme is AQUA ADVENTURESM

As part of your application, design an ecosystem with one animal or creature in a water habitat. Explain how this animal survives in its habitat (such as adaptations, behaviors, etc). In the space provided, draw the ecosystem and your animal. Then, explain how this animal survives in its ecosystem.

Due: September 22, 2017

No late entries will be accepted

Show/explain your design here!
